

Episode 7

Challenge Introduction

1. Find and graph the top 3 largest states by # of solar plants with a bar chart

-<https://github.com/plotly/datasets/blob/master/solar.csv>

#<https://pandas.pydata.org/pandas-docs/version/0.17.0/generated/pandas.DataFrame.nlargest.html>

2. Plot the closing price for Tesla stock only for the year 2018

-<https://raw.githubusercontent.com/plotly/datasets/master/tesla-stock-price.csv>

3. Graph the county with the highest population and the corresponding state from <https://github.com/plotly/datasets/blob/master/minoritymajority.csv>. Can you make the county within the state a specific color?
